You lead me out where the light breaks through

Fresh wind, fresh fire, my heart's made new

Every step I can feel Your grace

Every breath is a song of praise

Goodness and mercy follow me... follow me

All of my days You're all I need... all I need

Goodness and mercy follow me... follow me

Forever alive, forever free...

My heart overflows... You stay with me

Your love won't let go... it carries me

Goodness is running right after me

My heart overflows... my soul is free

Shadows fall but I will not fear

You are the strength that's drawing me near
